

## CUMULATIVE INDEX 2005

### A

- Abdominal pain, 535
- Abrasions, 582-583
- Acclimatization, 696
- Acetazolamide, in high altitude exposure, 427
  - on high-altitude sickness, 714
- Achievement by proxy, as distinct abuse, 818-820
  - as potential abuse, 818
  - as risky sacrifice, 816-817
  - objectification in, 817-818
- Achievement by proxy distortion, 763-764, **805-828**
  - and factitious disorder by proxy, 814-815
  - case vignette, and clinical strategies, 823-825
  - evolutionary historical perspective on, 807-809
  - families in, in stabilization/re-equilibration for, 806
  - high potential for, 811-813
  - mental health professional and, 822-823
  - parental typologies in, 819, 820, 821-822
  - prior psychological and psychiatric research on, 809-810
  - spectrum of, 820
  - supportive behavior of, maintenance in families, 815-820
  - normal range of, 815
- Acne, 592
- Acromioclavicular joint, arthrosis of, 191
- Actigraphy, 452
- Acute mountain sickness (AMS), 713, 714
- Adolescents, and children, benefits and risks of sports participation for, 787-790
  - children and, sleep and circadian rhythms in, **319-328**
  - sporting participation for, 784
- Aerobic capacity, menstrual cycle and, c61
- Aerobic endurance, menstrual cycle and, c62-63

- Age categories, in youth sports, c31
- Aggression, and sport, **845-852**
  - biological factors in, 846-847
  - biopsychosocial model of, 846
  - control of, 848
  - learning to manage, 848-849
  - meanings of, historically, 845
  - observable, 845
  - overly aggressive behavior and, 846
  - psychological issues and, 847-849
  - social issues and, 849-851
- Air travel, and jet lag, implications for performance, **367-380**
  - health consequences of, 372-373
- Airway, upper, anatomy of, 330, 331
- Alcohol abuse, and aggression, 847
- Alcohol dependence, CAGE questionnaire in, 755
  - diagnosis of, 755
  - team physician in, 756
  - effects of, 755
- Alcohol use, motivation for, 886-887
- Alcoholism, and substance abuse, 755-756
  - among high school and college athletes, 755
- Alertness-enhancing drugs, sports chronobiology and, 418-424
- Allergic/anaphylactic conditions, exercise-associated, 513-517
- Allergic contact dermatitis, 518-519
- Allergic disorders, in athlete, **507-523**
- Allergic rhinitis, 508-511
  - allergens causing, 508-509
  - allergy testing in, 511
  - and athletic performance, c40-41
  - in athletes, c39
  - management of, c41-44, 509
  - nasal obstruction in, 510
  - pathophysiology and presentation of, c39-40
- Allergy(ies), and Olympic athletes, c38-39
  - diagnosis of, c37
  - manifestations of, c37

Note: Page numbers of article titles are in **boldface** type.

- pathophysiology of, c35-36  
seasonal, medical treatment of, related to athletes, c42-43  
seasonal decrements in athletic performance and, c35-50  
seasonal effects on athletes, c37
- Allografts, osteochondral, in cartilage defects, 169
- Amenorrhea, 623-626
- Amphetamines, in attention deficit/hyperactivity disorder, 840-841  
use by athletes, 888-890
- Anabolic steroids. *See Steroids.*
- Analgesia, caffeine and, c8-9
- Anaphylaxis, exercise-induced, 514-515  
food-dependent, 515-516  
treatment of, 516  
variant type, 516
- Androstenedione, 726
- Anemia, in athletes, 603, 604
- Angioedema, 518
- Ankle, and foot, osteoarthritis of, 65-66  
treatment of, 66  
degenerative joint disease of, 93  
replacement of, recovery following, 180
- Anorexia, 753-754  
referral in, 754  
reverse. *See Muscle dysmorphia.*
- Anorexia athletica, 753, 873
- Anorexia nervosa, 753-754
- Anterior cruciate ligament, effects on female of female hormones and, c66-68  
injury to, 40  
reconstruction of, in arthritic patient, 146  
tear of, osteoarthritis and, 192, 193
- Antibiotics, 721-722
- Antidepressants, in insomnia, 282
- Antihistamines, in allergic rhinitis, 509
- Anti-inflammatory drugs, nonsteroidal. *See NSAIDs.*
- Anti-inflammatory sprays, in allergic rhinitis, 509
- Anxiety, and "nerves", distinguishing between, 668  
definition of, 667  
normal, and anxiety disorder, differentiated, 748  
performance, 668
- Anxiety disorder, in athlete, 748
- Aortic stenosis, 469-470
- Appendicitis, acute, 535
- Applied sport psychology, 966-967
- Applied systems theory, professional sports teams and, 932-933
- Arachadonic acid, 74
- Arachadonic acid derivatives, 74
- Arrhythmogenic right ventricular dysplasia, 472, 473
- Arthritis, degenerative, of glenohumeral joint, dislocation of shoulder and, 47  
of distal radioulnar joint, 64-65  
of hip, arthroscopy in, 59-60  
early, osteotomy in, 59  
pisotriquetral, 65  
radiocarpal, after intraarticular distal radius fractures, 64  
reconstruction of anterior cruciate ligament in patient with, 146
- Arthrography, CT, or MR imaging, of cartilage, 24-25
- Arthropathy, of shoulder, incidence of, 47-49
- Arthroplasty, abrasion, and microfracture, in knee, 144-145
- Arthroscopic classifications, 133-135, 136
- Arthroscopic lavage, debridement, in knee pain, 139, 140-141, 142-143  
in knee pain, 138-142
- Arthroscopy, and high tibial osteotomy, 146-147  
diagnostic, in knee pain, 135-138  
in osteoarthritis of knee, in athlete, 133-152  
author's method of, 147-148  
of hip, in arthritis, 59-60  
of shoulder, rating of chondral damage for, 49
- Arthrosis, surgical management of shoulder instability and, 50-51
- Articular cartilage. *See Cartilage, articular.*
- Artifacts, and inaccuracies in MR evaluation, 23-24
- Aspirin, in high-altitude headache, 713-714
- Assistance programs, team, collegiate, design of, 945-946  
staffing and services of, 947-948  
use of, 951-952  
critical-incident stress management services in, 954-955  
diverse staff for, 953  
family assistance in, 956  
fitness and supplement use information in, 955  
history and program design of, 944-946

- on-site services and, 953
  - preseason physicals and, 953-954
  - prevention talks in, 954
  - professional, approach for, 944-945
    - staffing and services of, 946-947
    - use of, 948-951
  - professional and collegiate, service areas for, 943-944
  - services and utilization of, 943-958
    - strategies to increase use of, 952-956
  - sleep related problems and, 955
  - tobacco cessation services and, 954
- Asthma, chronic persistent, treatment for, 548
- exercise-induced, diagnosis of, e46
  - pathogenesis and presentation of, e45
  - seasonal considerations in, e45-46
  - in athletes, e45
  - management of, e46-e47
  - medications for use in, 722
  - prophylaxis of, e46
- Atherosclerosis, 469
- Athlete(s), alertness in, implications of caffeine for, e1-13
- child. See also *Child(ren)*.
    - and family, psychiatric interview of, 797-801
  - elite, jet lag and, 371-372
  - family of, as influence on athlete's life, 899
    - as source of support or pressure, 903-905
  - assessment of, 916-919
  - clinical assessment and treatment of, 916
  - demands on, 899
  - developmental analysis of, 907-915
  - developmental events and, 902-903
  - developmental model for, 906-907
  - ethical issues in, 924-925
  - interactions of, 901-902
  - paradox of, 905-906
  - review of literature on, 901-906
  - treatment of, 919-924
    - challenge in, 923-924
    - education/prevention in, 921-922
  - imaging of cartilage of, 13-37
  - obstructive sleep apnea in, 336-339
  - professional, and intra-psychic system, 933-934
  - and mental health professionals. See *Mental health professionals, and professional athletes.*
  - cognitive behavioral techniques and, 934
  - countertransference issues and, 934-938
  - traveling, guidelines for adjustment of, 367
- Athletic participation, as therapy, 865-866
- Athletic performance, implications of sleep apnea for, 329-341
- of young people, sleep and circadian rhythms and, 319-328
  - seasonal decrements in, seasonal allergies and, e35-50
  - seasonal variation in, e29-31
  - stimulants to enhance, 418-419
- Atomoxetine, in attention deficit/hyperactivity disorder, 837, 838, 839
- Attention deficit disorder, stimulants for, 722
- Attention-deficit/hyperactivity disorder, 670
- Attention deficit/hyperactivity disorder, 758-759
- and depressive disorders, 836
  - and psychiatric comorbidity, 835
  - and psychopharmacologic treatments, 829-843
  - and youth athlete, 833-836
  - case vignette of, 831-833
  - characteristics of, 830-831
  - "continuous chaos" sports for, 759
  - diagnosis of, 830
  - early symptoms of, 758-759
  - effects on performance, 829, 834
  - pharmacologic treatment of, 836-839
  - treatment of, 834
- Autonomic control, techniques to enhance, 975
- Axis I psychopathology, suicide in athletes and, 860
- Axonal injury, diffuse, 645-646
- 
- B**
- Bacterial infections, 574-576
- Balance error scoring system (BESS), 639
- Basal forebrain arousal system, 212-213
- Behavioral studies, of memory and sleep, 303
- Behavioral treatment, in insomnia, 380
- to increase alertness after air travel, 377
- Beta-hydroxy beta-methylbutyrate (HMB), 729-730
- Binge/purgers, 754
- Bioregulatory factors, maturation of, 321
- Bipolar disorder, 668-669
- in athlete, 747-748

- Bleeding, gastrointestinal. See *Gastrointestinal bleeding*.
- Bleeding tendencies, 601
- Blisters, 583-584
- Body temperature, measuring of, 705
- Bone, Wolfe's Law of, 181
- Brace(s), and orthotic, in degenerative joint disease with angular deformity, 93-99  
knee orthoses, mechanical, 97-98  
"unloader," 98  
varus unloader, 95-96
- Brain plasticity, sleep-dependent, 311-315
- Breathing techniques, for sleep promotion, 350
- Bright light treatment, 381-412  
administration of, 399-401  
adverse effects and reactions to, 401-404  
alerting and antidepressant effects of, 388-398  
and bipolar disorder, 400  
studies in athletes, 390-391  
to adjust body clock, 374, 375  
wavelength considerations and, 384-385
- Bronchitis, acute, background of, 541-542  
clinical manifestations and diagnosis of, 542-543  
cough in, 542  
treatment of, 543-544
- Bronchoconstriction, exercise-induced, and vocal cord dysfunction, compared, 550  
background of, 545  
clinical manifestations of, 545-546  
diagnosis of, 546-547  
isolated, 548-549  
nonpharmacologic management of, 547  
pharmacologic management of, 548  
plus chronic asthma, 548  
treatment of, 547
- Bronchospasm, exercise-induced, c28
- Brugada syndrome, 473-474
- Bulimia, definition of, 754
- Bulimia nervosa, 754-755
- Burnout syndrome, 791
- C**
- Caffeine, 730-731  
action during exercise performance, c6-7  
administration of, following caffeine abstinence, c3  
adverse effects of, c3, c4  
and analgesia, c8-9  
and exercise performance, c6  
and performance effects during extreme conditions, c5-6  
as countermeasure to post-lunch dips in performance, c20-21  
as stimulant, 424  
cardiovascular effects of, c7  
cognitive effects of, c5  
consumption of, physiology of, c1-4  
dependence on, c3  
effects on measures of alertness, c4-5  
effects on plasma free fatty acids, c7-8  
implications for alertness in athletes, c1-13  
in common drinks and foods, c2  
psychologic effect of, c9  
respiratory effects of, c7  
to increase alertness after air travel, 376-377  
withdrawal, c3-c4
- Calluses, 584-585
- Cancers, skin, 593
- Carbuncles, 576
- Cardiac concussion, 475
- Cardiac death, sudden, 467-475
- Cardiology, sports, common issues in, 463-476
- Cardiomyopathy, hypertrophic, 464, 467-468
- Cardiopulmonary resuscitation, in hypothermia, 709
- Cardiovascular system, effects of caffeine on, c7  
health of, exercise and, c26-27  
obstructive sleep apnea and, 332  
sex steroid hormones and, c55-56
- Career termination issues, 761-762
- Cartilage, articular, and osteoarthritis, basic science of, 1-12  
injury to, 42-43  
in repetitive training and competition, 163, 164  
irrigation, debridement, and abrasion chondroplasty in, 164-165  
surgical management of, 164  
treatment of, comparative studies of, 169-171  
of elbow, imaging of, 28, 29-30  
of hip, imaging of, 27, 28, 29  
of knee, imaging of, 26-27  
of shoulder, imaging of, 30, 32  
of wrist, imaging of, 30  
therapy for, postoperative considerations following, 32-35

- tissue composition and load transmission in, 3-4
  - defects of, in athletes, surgical management of, **163-174**
  - marrow stimulation techniques (microfracture) in, 165-166, 170
  - hyaline, basic science of, functional structure of, 1-3
  - imaging of, radiographic considerations in, 14
  - techniques in development for, 25-26
  - MR imaging of, 14-23
  - imaging of, in athlete, **13-37**
  - osteoarthritis, structure and biochemical changes in, 4-7
- Catastrophic injury, definition of, 644
- Cellulitis, 574-576
- Cerebral edema, high-altitude (HACE), 712, 713, 714
- Cerebrovascular disease, eye in, 690
- Child and youth sports, benefits of, 787-790
- for twenty-first century, developmental overview of, **783-804**
  - importance of, 783
  - risks of, 789-790
- Child(ren), and adolescents, benefits and risks of sports participation for, 787-790
- sleep and circadian rhythms in, **319-328**
  - high-achieving, and adult caregivers, relationship between, developmental tasks of, 810-813
  - neuropsychological readiness for sports, 785
  - school-age, maturation of sleep-wake homeostasis in, 321-322
- Chlorotrichosis, 589-590
- Cholinergic urticaria, 513-514
- Chondral injuries, in active patients, 164
- rating of, for arthroscopy of shoulder, 49
- Chondrocytes, autologous, implantation of, in cartilage defects, 167-168, 170
- Chondroitin, 75, 76-77
- Chondromalacia, in osteoarthritis, 5, 6
- Chondroplasty, abrasion, in injured articular cartilage, 165
- irrigation, and debridement, in injury of articular cartilage, 164-165
- Chromium, 733
- Chronobiology, sports, **413-454**
- Circadian rhythm(s), 368, 369-370
- functional neuroanatomy of, 219-221
  - in performance, 371
  - of core body temperature, 288-290
  - post-lunch dips in performance and, **e17-19**
  - sleep and, and psychomotor vigilance performance, **237-249**
  - in children and adolescents, **319-328**
  - terminology and definitions of, 219
- Circadian timing system, maturation of, in school-age children, 322-324
- Clonazepam, 670
- Coaches, aggression and, 850
- as role models and active stress inducers, 793
- Coagulation disorders, 600-602
- Cocaine, medical sequelae of, 419
- Cognitive behavioral techniques, and professional athletes, 934
- Cognitive behavioral therapy, in eating disorders, 878
- in insomnia, 280
- Cognitive development, and effect on sporting performance, 785
- Cognitive relaxation, for sleep promotion, 351
- Cold injuries, 703-712
- prevention of, 710-711
- Collagenomas, 592-593
- Comotio cordis, 475
- Computed tomographic arthrography, or MR imaging, of cartilage, 24-25
- Concussion, 672-673
- clinical manifestations of, 640-641
  - definition of, 637
  - long-term sequelae of, 644
  - NATA graded symptoms checklist for, 639, 640
  - postinjury assessment for, 641-643
  - preinjury education and assessment in, 637-640
  - return to play and follow-up in, 643-644
  - Standardized Assessment of Concussion and, 638, 639
- Conjunctivitis, allergic, 483-484, 511-512
- bacterial, 483
  - considerations in athletes, 484
  - viral, 483
- Consultation-liaison service psychiatrist, 929
- Consulting room atmosphere, "holding environment" in, 745
- Contact dermatitis, 590-592

- Continuous positive airway pressure, nasal, 555-556
- Core body temperature, 287  
and skin temperatures, sleepiness in relation to, 290-298  
circadian rhythm of, 288-290
- Corneal abrasion, 684-685
- Corns, 584
- Coronary artery(ies), abnormalities of, 468-469  
anomalous, 468-469
- Corticosteroids, in osteoarthritis, complications of, 86  
contraindications to, 86  
indications for, 84-85  
mechanism of action of, 84  
preparations of, 85-86  
intranasal, in allergic rhinitis, 509-510
- Countertransference, 764-765  
issues of, and professional athletes, 934-938
- Creatine, 728-729

**D**

- Death, causes of, among young athletes, 464
- "Decision-making skills," 757
- Decongestants, and allergic rhinitis, e44
- Degenerative joint disease, of midfoot or ankle, foot orthotics in, 94-97  
with angular deformity, orthotic and brace use in, 93-99
- Dehydration, mild, 701
- Dehydroepiandrosterone (DHEA), 726
- Delayed sleep phase syndrome and, 443
- Dementia pugilistic, 760
- Depression, and "feeling down", distinguishing characteristics of, 667  
in athlete, 746-747  
nonseasonal, 396  
seasonal, light and, 391-396  
secondary to overtraining, 761  
symptoms of, 666
- Dermatitis, allergic contact, 518-519
- Dermatology, sports, training room management of, 565-598
- Dermatophytes, 565-572  
play restrictions in, 580
- Dermatoses, inflammatory, 590-593  
mechanical and environmental, 582-593
- Desensitization therapy, in allergies, 520
- Dexamethasone, on high-altitude sickness, 714
- Dextroamphetamine, in attention deficit/hyperactivity disorder, 832, 837
- Diabetes, eye pathologies in, 690-691
- Diabetic retinopathy, 690
- Diarrhea, 531-532  
acute exercise-induced, 531
- Diet, in osteoarthritic knee, 103
- Doping concerns, management of allergic rhinitis and, e41-44
- Doping issues, in future, 733-734
- Dreams, related to sports medicine physician, 762-763
- Drug abuse, diagnosis of, team physician in, 756
- Drug testing, oral contraceptive pills and, e75-76
- DSM-IV Axis I psychiatric disorders, 847
- Dysmenorrhea, e70
- Dyspepsia, 530-531
- Dysphagia, 527-528

**E**

- Eating disorders, 628-631, 753-755  
American Psychiatric Association  
diagnostic criteria for, 629-630  
in athletes, characteristic patterns of, 874-875  
comorbid mental illnesses and, 879-880  
diagnosis of, 873-875  
etiology of, 875-877  
managing the risks, **871-883**  
organization response and, 880-881  
prevalence of, 871-873  
symptoms of, 875  
treatment of, 877-879  
suicide in athletes and, 861-862  
surveys for identification of, 631-632
- Ehrlichiosis, 496-497
- Elbow, articular cartilage of, imaging of, 28, 29-30  
osteoarthritis of, 61  
symptoms of, 61

  systemic issues and, **929-942**
- Progesterone, **c70, c71**
- Program coordinators, as important in child and youth sports, 794
- Prohormones, 726
- Prostatitis, 500-501
- Protein, 727-728
- Proteoglycan aggregate, 4
- Proton density axial images, 16-17, 21
- Pseudoanemia, dilutional, 604-606
- Pseudoephedrine, as stimulant, 424
- Psychiatric diagnosis, and referral, sports medicine physician and, 765  
  and treatment, of athletes, **771-781**  
    cases illustrating, 771, 774, 776-777  
    diagnostic issues in, 773-774  
    goals of, 772  
    inducing athletes to undergo treatment, 775-776  
    methodology of, 772-773  
    principles of, 771-778  
    range of problems in, 774-775
- Psychiatric illness, concept of immunity of athletes from, 853
- Psychiatric interview fo child athlete and family, 797-801
- Psychiatric issues, and neuropsychological issues, in sports medicine, **663-679**  
  prevalence and incidence of, 665-666  
  in training room, 666
- Psychiatrist, sport. *See Sport psychiatrist.*
- Psychodynamic psychotherapy, in eating disorders, 878
- Psychomotor vigilance performance, measurement of, 239-240  
  sleep, and circadian rhythms, **237-249**
- Psychostimulants, in attention deficit/hyperactivity disorder, 837, 838
- Psychotropic medication, 669

Pulmonary disorders in training room,  
541-564

Pulmonary edema, high-altitude (HAPE),  
712, 713, 715-716

## R

Radiofrequency ablation/debridement, in  
cartilage defects, 166

Radioulnar joint, distal, arthritis of, 64-65

Radius, distal, intraarticular, fractures of,  
radiocarpal arthritis after, 64

Relaxation, hypnosis as form of, 974  
thermoregulatory after-effects of, sleep  
inertia and, 294-296

Respiratory system, effects of caffeine on, c7  
sex steroid hormones and, c56-57

Respiratory tract, upper, infections of, c28-29

Restless legs syndrome, exercise and, 359

Retina, injury to, 686-687

Retinopathy, diabetic, 690

Retirement, suicide in athletes and, 859-860

Rewarming, process of, 707-708

Rhinitis, allergic. See *Allergic rhinitis*.

Right ventricular outflow tract tachycardia,  
474-475

Ringworm, 567-568, 569

Rocky Mountain spotted fever, diagnosis  
of, 496  
mortality rate in, 496  
risk factors for, 495

"Roid rage," 757

Rotator cuff, tears of, in throwing  
athletes, 191

Rugby, Australian, osteoarthritis of knee in,  
191-192

Running, injuries related to, 190-191, 193

## S

Scabies, 579-580

Scaphoid, fractures of, nonunion advanced  
collapse of, 63-64

Scapholunate, advanced collapse of, 63

Seasonal rhythms, and exercise, c25-34  
functional neuroanatomy of, 226-228

Seizures, and epilepsy, 649-653  
assessment and management of,  
650-652

classification of, 649-650, 651  
exercise and, 652-653

Selective serotonin reuptake inhibitors, in  
eating disorders, 879

Sensory stimuli, withdrawal of, for sleep  
promotion, 350

Sex steroid hormones, biological effects of,  
c55-60  
cardiovascular system and, c55-56  
respiration and ventilation and, c56-57  
substrate metabolism and, c58-59  
thermoregulation and, c57-58

Sexual abuse, suicide in athletes and, 863-864

Sexually transmitted diseases, 501-502  
Centers for Disease Control (CDC)  
and, 501-502

Shoes, in osteoarthritic knee, 113

Shoulder, arthropathy of, incidence of, 47-49  
arthroscopy of, rating of chondral  
damage for, 49  
articular cartilage of, imaging of, 30, 32  
dislocation of, and degenerative arthritis  
of glenohumeral joint, 47  
osteoarthritis of shoulder and,  
48, 49

instability of, osteoarthritis following,  
47-56

significance of osteoarthritis of  
shoulder after, 52

surgery in, osteoarthritis of  
shoulder after, 51

surgical treatment for, arthrosis  
and, 50-51

treatment of, loose suture anchor  
within glenohumeral joint  
after, 50, 51

osteoarthritis of gleno-  
humeral joint after, 50

treatment of osteoarthritis of  
shoulder after, 52-54

osteoarthritis of, after instability  
surgery, 51

after shoulder instability,  
significance of, 52

treatment of, 52-54

and dislocation of shoulder, 48, 49

replacement of, recent improvements  
in, 180

Sickle cell disease/trait, 599-600

Siesta naps, c15-16

Sinusitis, 480-481

Skin cancers, 593

Skin infections, 565-582

play restrictions and regulations in, 580  
prevention of, 581-582

Skin temperatures, and core body  
temperature, sleepiness in relation to,  
290-298

Skin warming/cooling, for sleep promotion,  
348-349

- Sleep, afternoon human propensity for, 15-16
- and circadian rhythms, in children and adolescents, **319-328**
  - and melatonin and gonadotropins, 325-326
  - and psychosocial factors, 320-321
  - and wakefulness, functional neuroanatomy of, 205-210
- arousal from, consequences of, 554
- at high altitude, monitoring of, 427-428, 445-446
- chronotype for, 435-436
- circadian adversity and, 431, 442-443
  - circadian markers for, 436-437
  - circadian rhythms, and psychomotor vigilance performance, **237-249**
